MAUGHAN READY TO MAKE ANOTHER TRY FOR TRIP PLANNED

No Way Discouraged Over Failure to Complete Dawn to Dusk Flight Thus Far—Investigation Shows Bad Engine Trouble Developed—Maughan Denies He Was Sick

(By The Associated Press)
ROCK SPRINGS, Wyo., July 20.—Further flight in the airplane piloted by Russell L. Maughan, army aviator in his present condition and to repair the motor would require an indefinite period, Lieutenant Maughan announced here tonight.

An investigation by mechanics at the air mail field here here Lieutenant Maughan landed because of leaking oil, revealed that the plane would not leave the ground, it was announced. It previously had been planned by the army to make a test flight in the plane if possible, late today.

Reporting the condition of the machine to the army air service officers at Washington, Lieutenant Maughan declared in his report that an investigation showed that not only was his oil cooler leaking when he was forced to abandon his flight, but that water was flowing freely from the cylinders and was mixing with the oil.

TREET CAR MEN ALLOWED AN INCREASE

Decision Made by Arbitration Board After Hearing

(By The Associated Press)
CHICAGO, July 20.—The street car arbitration commission hearing the wage dispute between the Chicago surface lines and 14,000 employees decided tonight to give the employees a four percent increase of three cents for their year and five cents for next year over the present seventy cents an hour rate. The employees asked for a ten cent an hour increase and the company had opposed any raise.

The arbitration commission was named a month ago when a strike of employees of surface lines and elevated lines threatened.

After repeated threats to strike the employees and the elevated and surface lines at the instance of Mayor William E. Dever finally agreed to submit the dispute to arbitration, agreeing to abide by the award.

The increase of three cents an hour is retroactive to June 1, and is in effect until June 1, 1924, while the five cent rate dates from June 1, 1924 to June 1, 1925.

John Bruce, president of the Elevated Employees Union said tonight he believed the award would be accepted by his men without any reference to arbitration.

Campaign of Wheat Buying Advocated

(By The Associated Press)
OMAHA, Neb., July 20.—Seventy-five Omaha business men including directors and members of the executive committee of the Omaha Chamber of Commerce today took steps to bring about nationwide wheat buying by business of this grain to the farmers in the belief that better general business conditions will result.

ANTI-SALOON LEAGUE HEAD IS INDICTED

Grand Jury Advises Investigation of the League's Affairs

(By The Associated Press)
NEW YORK, July 20.—William H. Anderson, superintendent of the Anti-Saloon League of New York today was indicted on several counts and the grand jury recommended legislative investigation of the league since Mr. Anderson took its helm in 1919. Three indictments charging grand larceny in the first degree and one forger in the third degree were handed down today. Assistant District Attorney Peacor announced the jury also had voted two indictments charging extortion and that issue would be filed next Wednesday.

Mr. Anderson, on hand when the indictments were handed down, pleaded not guilty before his counsel, former Governor Charles S. Whitman, could open his mouth.

After the dry crusader had been released in \$5,000 bail, he issued thru his publicity department, a long statement which began:

Anderson's Statement
"I shall wear as a medal of honor and a service badge my indictment for political purposes by the most corrupt and powerful wet political organization in the world as part of the Tammany conspiracy to put the nullification governor of New York state in the white house in defiance of the conscience and character of the nation."

The first grand larceny indictment charged that Mr. Anderson feloniously obtained \$4,578 from the league in March, 1921.

The second grand larceny indictment alleged that he feloniously obtained \$1750 on February 3, 1921.

The forger indictment set forth that he had falsely ordered \$4,400 to be entered in the league's books in March 1921, as the hotel and travelling expenses of O. Bertal Phillips, a collector for the league.

Grand jury investigation of Mr. Anderson's handling of the league's funds was pressed after he had steadfastly refused to be more specific concerning the expenditure of \$24,700 than to state that it had been used "for publicity purposes."

Chaplains Called To Training Camp

(By The Associated Press)
WASHINGTON, July 20.—Secretary Weeks announced today that with their consent 51 chaplains who are members of the officers reserve corps had been called for active duty at summer training camps. Instructions to camp commanders directed that chaplains' office be established in each camp and that lectures and other work be undertaken by the chaplains in connection with training programs for the promotion of high moral standards.

The chaplains who represent various denominations are directed to co-operate with welfare agencies in maintaining "home contacts for the troops."

Among the chaplains called to duty are:

2d Camp Custer, Reverend Arthur W. Barwick, Sterling, Ill.; Niles A. Borup, Armstrong, Ill.; Ernest Lack, Princeton, Ill.; Robert L. Logan, Quincy, Ill.; Joseph C. Ludgate, Wheaton, Ill.; John L. O'Donnell, Chicago; James A. Smith, Earlville, Ill.; Francis J. Thomas, Joliet, Ill.; Herman Wennermark, Aurora, Ill.

UNDERWOOD DECLINES TO COMMIT HIMSELF

(By The Associated Press)
BIRMINGHAM, Ala., July 20.—Senator Oscar W. Underwood will announce his course in the 1924 presidential campaign when he addresses the Alabama legislature in joint session on July 21, he told newspaper representatives upon his return from Washington today.

In declining to make any statement regarding the presidential race at present the senator said that he wished to discuss his status in Alabama with friends first. To this end he will confer in Birmingham during the next week and then visit Montgomery to ascertain feeling toward his possible entry in the lists.

"While at Montgomery, I shall issue a political statement," Senator Underwood asserted.

HEAD OF MILLIKIN RESIGNS POSITION

(By The Associated Press)
DECATUR, Ill., July 20.—Dr. Louis E. Holden, for three and a half years president of James Millikin University here, resigned his position Friday, to take effect September 1. He is widely known in educational circles.

Dr. Holden came to Millikin in 1920, leaving a position as president of the Presbyterian Educational Board. The University has had a satisfactory growth both financially and scholastically during his presidency.

Dr. Holden has not announced his plans for the future.

BAPTISTS ASSEMBLE IN STOCKHOLM FOR OPENING CONGRESS

Delegates from Almost Every Country in World Present

(By The Associated Press)
STOCKHOLM, July 20.—Representative Baptists from every continent were assembled here tonight in readiness for the opening tomorrow of the third congress of the Baptist World Alliance.

The delegates from every country where the Baptists are organized with the exception of Russia and England, have arrived, and the others are due early tomorrow.

The delegates spent much time viewing the first general exhibit ever assembled, of what their denomination is doing in the missionary, educational and benevolent fields, the exhibition having been prepared as one of the chief features of the congress. A monument was unveiled this afternoon at the grave of Dr. K. O. Broadly, who after serving as a colonel in the Union Army during the American civil war, returned to Sweden as a pioneer missionary educator and spent fifty years teaching in Bethel Seminary here forty of which he served as president.

ELEVEN CENTS FOR GAS IN DALLAS, TEX.

(By The Associated Press)
DALLAS, Texas, July 20.—Eleven cents the lowest retail price for gasoline in Dallas for many years, was reached at noon today in the thick of a local gasoline war, when one filling station supplied by the Humble Oil and Refining company, hung out the sign:

"Eleven Cents."

For several days the filling station where the new cut was made today has been selling gasoline at thirteen cents a gallon.

"We have come down to meet competition," said the manager.

SCRUB WOMAN HAS SEVEN STORY FALL

(By The Associated Press)
ST. LOUIS, Mo., July 20.—Though she fell seven stories down the elevator shaft of a downtown office building today, Mrs. Louisa Ott, 30 years old, a scrub woman, suffered no other injuries than fractures of both ankles, according to the physicians who examined her. Mrs. Ott was less alarmed over her injuries and her experience than she was over "the idea that my husband must be told of this."

ANGLO-IRISH TREATY OVER BOUNDARY IS UP

Free State Asks Appointment of Boundary Commission

(By The Associated Press)
DUBLIN, July 20.—In the Dail Eireann today President Cosgrave said the government considered the time opportune for carrying out the remaining provisions of Article 12 of the Anglo-Irish treaty dealing with the boundary between Northern and Southern Ireland, and for that purpose it had appointed Minister of Education McNeill to represent the free state on the boundary commission.

Mr. Cosgrave said it was urgent to revise the boundary in such a way as to meet the wishes of the greater number of the inhabitants and to leave on each side of the border as few discontented people as was possible. The government of the free state desired peace and harmony with their northern fellow countrymen but could not possibly ignore the discontent of people who are anxious to become citizens of the free state.

North Ireland Refuses
Belfast, July 20. (By The A. P.)—Premier Craig of the Northern government commenting on the statement of President Cosgrave in the Dail today said:

"My opinion that any boundary commission is illegal, remains unchanged. In any case the Northern government will not appoint a representative on such a commission."

U. S. WANTS WARSHIP RIGHTS COVERED IN NEW TURCO TREATY

Must Settle Question of Dardanelles Straits Rights Now

(By The Associated Press)
LAUSANNE, July 20.—The United States government is endeavoring to have the question of rights of warships in the straits of the Dardanelles incorporated in the Turco-American treaty as any idea of subscribing later to a special straits convention has been abandoned. George Tchitcherlin, the Russian minister of foreign affairs in his telegram announcing the decision of Soviet Russia to sign the straits convention said Russia reserved the right to reopen the discussion at any time her national interests demanded. Russia, he added, still opposed the form of the treaty, because it placed Russia and Turkey at the mercy of imperialistic states and obliged Russia to fortify the Black Sea.

However, as Turkey was satisfied Russia believed it desirable to sign the convention.

SIX INJURED IN MINE EXPLOSION

(By The Associated Press)
WILKES BARRE, Pa., July 20.—Six men were seriously burned in a gas explosion this afternoon in the Avondale mine of the Glen Alden coal company at Nanticoke. Mine officials said that no miners are employed by the accident.

The victims were rescued after a battle with the flames that followed the blast. At the Nanticoke State hospital where the men were taken it was reported that all were in a serious condition. The cause of the explosion has not been definitely determined. Mine officials think a pocket of gas was ignited by shots from a blast.

WHEAT CROP NEARLY TWO BILLION BUSHELS

(By The Associated Press)
WASHINGTON, July 20.—Argentina's exportable wheat surplus was about 36,000,000 bushels on July 3, compared with an estimate of 49,000,000 bushels last month, according to cable advice received today by the department of agriculture.

Forecasts of wheat production in sixteen northern hemisphere countries as reported by the International Institute of Agriculture at Rome in a cablegram today, are about 1,878,000,000 compared with 1,754,000,000 bushels last year.

MEXICO PRESIDENT ACTS PROMPTLY ON MURDER OF VILLA

Orders Investigation into the Assassination of Villa and Members of His Party—Assassins Fled to Hills—Troops in Pursuit and Rurales Called—See Political Enmity

(By The Associated Press)
BULLETIN
EL PASO, Texas, July 20.—Three members of the band of bandits responsible for the death of General Francisco Villa, his secretary, Miguel Trillo, and two bodyguards, were captured late today by a detachment of federal soldiers under command of General E. Martinez, a short distance from Parral, according to information received at Juarez military headquarters tonight.

MEXICO CITY, Mexico, July 20.—General Francisco Villa, one time noted bandit leader, and his chief of staff, Colonel Miguel Trillo and three members of Villa's escort were assassinated in an ambush early this morning on the outskirts of Parral, in the state of Chihuahua.

About a half dozen men comprised the band of assassins. They fired upon Villa and his men from a house they were passing and are reported to have made their escape from the scene.

Villa was driving an automobile on the way to Guanajuato.

When the news of the assassination reached here orders were sent to scour the countryside adjacent to the ambush in an endeavor to round up the guilty persons. The body of Villa is lying in the city hall of Parral, where thousands of persons have viewed it.

President Obregon has ordered an investigation into the assassination. Major General Eugenio Martinez at Chihuahua City has sent to General Francisco Serrano, secretary of war an official report he received from Colonel Felix J. Lara, commander of the garrison at Parral, in connection with the killing of the former noted rebel leader. The report follows:

CHARGED THAT WITNESS HAS BEEN HIDDEN

Attorney Made These Charges Before New York Referee

(By The Associated Press)
NEW YORK, July 20.—Allegations that the United States attorney's office, the local bureau of investigation of the department of justice, and the New York American, were concealing from him a witness much needed to straighten out a tangle over missing documents in a law suit, made by William J. Fallon, widely known criminal lawyer, were threshed out at length today before Referee Terence Farley. The hearing ended with a promise by Victor Watson, city editor of the American to produce the witness Monday.

Was Former Employee.
Ernest Edlitz formerly an employee in Fallon's office was the witness involved.

Edlitz, it turned out has been "nursed along" by the newspaper for several weeks for information it hoped to obtain from him about Fallon's connection with the affairs of the bankrupt stock bucketing house of E. M. Fuller & Co., for which Fallon until recently was counsel. Edlitz, discharged by Fallon already has appeared once against his former chief before a grand jury giving testimony on which Fallon was indicted for bribing a witness, and recently executed an affidavit asserting that missing papers in the Fuller case—for failure to deliver Fuller and partner William McGee are now imprisoned on charges of contempt of court—had been removed from an office adjoining Fallon's after the partners' imprisonment.

Alleges Husband Is Regular Cave Man

(By The Associated Press)
CHICAGO, July 20.—William B. Mann, wealthy Lake Forest clubman and former chief counsel for the Illinois Bell Telephone company, accused the part of a cave man after marrying her, Julia Manierre Mann, Chicago society leader, declared today before Judge Claire C. Edwards, in the Lake County circuit at Waukegan in an amendment to her bill for temporary alimony.

She charges that he tossed trucks at her, struck her hand, served himself first at the table, made faces at her and once when she tried to jump from an automobile after a scolding, he pushed her back in the seat so violently she was unable to get her breath.

Mann, who is fighting the suit, in an affidavit filed today declared his wife's social and musical ambitions wrecked their home and introduced a letter he alleges his wife wrote to one "Phillips" in which she called him "Dennis."

Arguments on the request for alimony will be heard tomorrow.

The dispatches yesterday indicated that Judge C. B. Thomas of East St. Louis is a Democratic aspirant for the governorship nomination in Illinois. Hereabouts we know nothing derogatory to Judge Thomas, but we are aware that if one of his opponents happens to be Judge Norman L. Jones of Carrollton that the East St. Louis jurist will have mighty little chance.

The continued discussion of the Morgan county health program reveals the fact that persons who are familiar with the plan are fully convinced that it is very much worth while undertaking and should certainly be developed. It is generally understood that the constructive health program which is both advertising and developing Morgan county, has only made a good start within the past year and it would certainly be fortunate indeed to let the program dwindle away at this time for the lack of a few thousand dollars.

If propaganda for smaller wheat acreage continues it will have its effect in materially lessening the crop totals next year. Smaller acreage will be merely the application of principles followed in other lines of business. Recently the operators who control the lead mines in Missouri because of over-production met and decided on a partial shut down of their mines. The working day was shortened and there are to be alternate periods of complete shut downs until the market improves.

The Western Petroleum Refiners association recently proposed to its member companies a complete shut down of refineries to relieve the serious situation created by the vast surplus on hand. Similar instance after instance could be related to show the application of this principle in business. Possibly the theory of making agriculture pay by producing two blades of grass where one has been growing is, after all, entirely wrong.

DISTRICT MEETING AT FARM BUREAU FRIDAY

Large Representation from Counties of 20th Congressional District Gather Here for Discussion of Farm Problems—Vote to Continue Form of Contracts

The district meeting of the Farm Bureau of the twentieth congressional district was held in the Morgan County Farm Bureau offices Thursday morning at 10 o'clock. Representatives from Morgan, Scott, Greene, Cass, Brown, Pike, Jersey, Menard and Mason counties were present.

The meeting was called to order by Charles S. Black who turned the gavel over to Earl Smith of Detroit, Pike county.

The purpose of the meeting was for round table discussion of the many questions that are continually coming before the different farm bureaus. Among other things it was voted to continue the present form of contracts which are made for a period of three years. All countries voted to send delegates to Jacksonville on Farm Bureau day at the Jacksonville Chautauqua which is set for August 25th, and on that afternoon O. E. Bradtke, president of the American Farm Bureau will be one of the Chautauqua speakers. The district will also hold another conference on the morning of that day in this city, tentative plans being for a meeting in the circuit court room at 10 o'clock. Those present at the meeting were:

KNOW OF COMING WEATHER

Almost Universal Belief That Tab by Has Foreknowledge of Any Approaching Changes.

"Cats have the reputation," says Dunwoody, according to the Detroit News, "of being especially weather-wise, an old notion which has given rise to a most extensive folklore. It is almost universally believed that good weather may be expected when the cat washes herself, but bad when she licks her coat against the grain, or washes herself over the ears, or sits with her tail to the fire."

"As, too, the cat is supposed not only to have knowledge of the state of the weather but a certain share in the arrangement of it, it is considered by sailors most unwise to provoke a cat. Hence they do not much like to have a cat on board at all, and when one happens to be more frisky than usual they quote a saying that the cat has a gale of wind in her tail. A charm often resorted to for raising a storm is to throw a cat overboard; but, according to the Hungarian proverb, a cat does not die in the water. Its paws disturb the surface—hence the waves on the surface of the water are called 'cat's paws.' In the same way, also, a large flurry in the water is called a 'cat's skin'; and in some parts of England a popular name for the stormy northwest wind is the 'cat's nose.'"

MOTTO WELL WORTH WHILE

David Crockett's Advice "First Be Sure You're Right, Then Go Ahead." Always Good.

David Crockett was the author of the famous motto, "Be sure you are right, then go ahead." It is said to have first appeared in print in Crockett's "Autobiography," published in 1834—appearing on the title page in the following form, says the Detroit News:

"I leave this rule for others when I'm dead. Be always sure you're right—then go ahead."

The statement has been made that "Crockett wrote this highly entertaining history of his own life . . . full of blunders in grammar and misspelled words," although it had been revised and corrected by his more scholarly friends, "but the Britannica speaks of it as a 'so-called autobiography,' which he very probably dictated or at least authorized published in 1834. A work purporting to be a continuation of this autobiography and entitled 'Colonel Crockett's Exploits and Adventures in Texas' is undoubtedly spurious."

John Bartlett, in his "Familiar Quotations," describes "Be sure you are right, then go ahead" as "the motto of David Crockett in the War of 1812."

Where Mammoths Roamed.

Mastodons and woolly mammoths were once as thick in New York as bison were on the western plains a century ago, according to Dr. Sherman C. Bishop, zoologist of the state museum. Although the mammoths were more closely related to the elephants, the only surviving members of the family, they were the first to become extinct and probably passed off the scene while the mastodons were still thriving. Skeletons of mastodons, more or less complete, and some of them suitable for museum mounting, have been found in about 100 localities in the state, the last one at Temple hill, Orange county, in 1921. The first was found in Albany in 1705. These huge mammals are believed to have flourished about the end of the last glacial period, some 20,000 years ago. Their skeletons are found generally in the marsh lands of those early days.

Africa Stands High.

Geologists believe Africa is a huge block of the earth's crust, thrust above the ocean's level by some force from deep in the rocks, and held there almost since geological history began. Africa is a continent practically without harbors. The northern portion is generally low and has at different times been covered by the sea. But the southern peninsula, the true "dark continent," is a high plateau. All around its coasts the shores rise steeply out of the water. Rivers pour down the slopes in rapids, or in the case of Zambesi, the scarp is sheer enough to have generated a waterfall.

Worse and Worse.

"How yo' feelin' now, Sam?" questioned his wife, entering the hospital ward nervously. "Liza, Ise sick man," moaned the patient. "De doctors says I's got berkolosis."

"Dat's all right, Sam; we'll take keer of yo' an' get rid of dat berkolosis."

The following day, however, when his wife returned Sam was more dejected than ever.

"Faint no use, Liza; no use. I ain't never gwine get well. De doctors say dat neah mornin' I got two berkolosis."

Henry Hudson.

Charles Barnard, an authority on the subject, says that the time and place of the birth of Henry Hudson appear to be lost. "We only know," he says, "that he had earned, perhaps by the time he was forty, sufficient reputation as a bold and skillful navigator to be placed in command of the ship Half Moon of Amsterdam. Early in 1609 he made a contract with a party of Dutch merchants to act as captain of their private exploring expedition, and in the written agreement between them he was described as 'Henry Hudson, Englishman.'"

A PEEP INTO THE FUTURE

The National Health Council, a combination of the 13 great medical and public health organizations in America, has announced says the U. S. Public Health Service, that during the 12 months beginning July 4 next it will endeavor to persuade every person in the United States to take a peep into the future to see what the condition of his health will be a few years hence. Anybody who does not like what he sees will be told what he can do to better it.

For ages men have sought to probe the future by reading the stars, consulting the oracles, visiting fortune tellers and mediums, and even by watching for the groundhog and reading the goosebone. But always, in all ages, when men sought information concerning the future they coupled their request with the question, unspoken, but always understood: "Will I be there to see the prophecy fulfilled?"

It is not so difficult as it may seem to predict how long a man will retain his health or will live. His "expectation of life" is particularly easy to estimate: Subtract his age from 80; and if his health is good he will probably live for more than two-thirds of the difference.

"But is his health good? Is your health good?" asks the National Health Council. "That is the question."

A life insurance company can answer the question pretty accurately. Unless it does so it is bound to go bankrupt sooner or later. So it finds out the sort of work you are doing, inquires into your family history, and wants to be told what illnesses you have had. Finally it examines you physically, not merely to find out whether you are sound at the moment but whether you have any unsuspected disease, whose existence neither you nor anyone else could know from ordinary observation. It considers also whether your lungs, heart, stomach, etc., are able to prevent "germ" diseases from getting a foothold in your body or to drive them out after they have gotten a foothold.

Most persons think of death as coming from one of the great diseases—typhoid fever, for instance. But it isn't these that do the real damage. It's the hidden things that awaken your organs without your knowing it till the test comes and you find yourself defenceless. It is, for instance, the abscess at the root of a tooth that injures the kidneys; the infected tonsils that discharge a pus that causes rheumatism; the little lump beneath the skin that some day changes into a deadly cancer the work that strains one's weakest spot till it gives way, when another sort of work would do no harm.

All these things can be and will be investigated under the Council's plan by a reputable physician—by each person's family doctor, if he likes. The Council hopes that at least 10,000 persons, say 30,000 a day, will have themselves examined during the 12 months beginning July 4 next. It is a big job; and to make it easier the Council suggests that every one should be examined on his own birthday—even those born on February 29, for 1924 is leap year.

This National health examination campaign will unquestionably markedly lengthen the average human life. Its span in the United States was lengthened from 41 to 56 during the 50 years by at least 20 years more, according to the American Public Health Association, which certainly ought to know what it is saying. This means that fifty years from now the average man will live to be 76 instead of 56, as at present; and that he will feel spry enough to enjoy life at 76—and for a good deal longer.

PERMIT NOT NEEDED TO MAKE CIDER AND OTHER FRUIT JUICES
Must Add Preservatives to Prevent Alcoholic Fermentation
(By The Associated Press)
WASHINGTON, July 20.—Manufacture of cider and other non-intoxicating fruit juices is authorized without the formality of applying for a permit, under regulation issued today by Commissioner Blair of the Internal Revenue Bureau, but persons who make them must add preservatives to prevent "further alcoholic fermentation."
Fruit juices may not be lawfully used for beverage purposes after becoming intoxicating.
Under a ruling superseded by the new regulations manufacturers of fruit juices have not been held responsible for any natural reaction of the liquid.
New Regulations
The new regulations define preserved sweet cider as that in which alcoholic fermentation has been prevented by the addition immediately upon pressing of benzoate of soda in the proportion of not less than 4 to 44 ounces to each barrel of 50 gallons, or by immediate sterilization.
The presence of four percent of acetic acid will be considered as changing the cider to authentic vinegar.
Warning is given that any persons selling unpreserved sweet cider, even tho it is not intoxicating at the time of sale, to be consumed after an illegal alcoholic content has developed is guilty of violating that section of the prohibition law which deals with the sale of alcoholic beverages.

DECATUR PASTOR IS CALLED TO QUINCY
(By The Associated Press)
DECATUR, Ill., July 20.—Rev. Harry L. Meyer, Pastor of the First Congregational church, Decatur, announced that he had accepted the call he received last Sunday to go to the Union Congregational Church at Quincy.
PITTSFIELD WOMAN HARDING'S COUSIN
Pittsfield, July 20.—Doubtless it is not generally known but nevertheless it seems to be a fact that Mrs. Ola Hesley of this city is a first cousin of Warren G. Harding, president of the United States. Mrs. Hesley's maiden name was Eolin Warren. Her father and President Harding's mother were brother and sister, which makes Mrs. Hesley and the President first cousins. Mrs. Hesley is the widow of the late John Hesley, who was for many years a leading groceryman in this city. An other interesting relationship lies in the fact that Mrs. Hesley's grandfather on her father's side was an uncle of Mrs. Tom Thumb, famed for her diminutive stature. Mrs. Thumb's father and Mrs. Hesley's father's father being brothers. Mrs. Hesley was born in Ohio, but when she was about 3 years old her family moved to New York State, whence her father's family came originally. In early days some of the Warrens emigrated to this Western country and were never heard of by their relatives back East. What became of them is still a mystery, but it is believed that in neighboring Illinois counties and in St. Louis there are today certain descendants of those lost pioneers.

TWO DIE AT RANTOUL WHEN AIRPLANE FALLS
Lieutenant Harold McNab of Decatur One of Aviators Killed—Had Family Connections Here.
CHANUTE FIELD, Rantoul, Ill., July 20.—First Lieutenant Harold R. McNab of Decatur Ill., and First Lieutenant Edward H. Kinney of Chicago were killed here today when their airplane suddenly fell to the ground as they were making a landing.
Both men were members of the officers reserve corps and were just finishing a practice flight. Lieutenant McNab was the pilot and Lieutenant Kinney was acting as passenger.
The cause of the accident is not known but an immediate investigation was started by a board of inquiry of officers at the field.
Arthur McNab lived at 724 South West street, Decatur and is the son of Arthur McNab of that city. Each aviator was 29 years old.
Chicago, July 20.—First Lieut. Edward F. Kinney of the officers reserve corps, who was killed this morning in an airplane accident at Chanute field, Rantoul, Ill., was office manager of the Johnson Fare Box Co., of Chicago. He is married and is survived by his widow and a young son. He served as a bomber and observer during the world war, but was not sent overseas.

Decatur, Ill., July 20.—Harold McNab killed at Rantoul, this morning in an airplane accident was an experienced aviator. He went into service in 1917, got his early training at Keely field, Texas, and at Scott field Belleville, Ill., before being sent to Rantoul, where he received his commission as Lieutenant in June 1918.
He went overseas and reached the battle front near Tours about three days before the armistice was signed but did not get into action. On his return to this country, he did six months civilian experimentation work for the government at Wilbur Wright field, Dayton, Ohio.
Lieutenant McNabb was a son of Mrs. McNabb of Decatur, who is a sister of the late Edward Whitmer of this city. Some of Nab's life were spent in Jacksonville.
A telegram received yesterday by Mrs. Charles Hopper of Grove street and Mrs. Ida Whitmer told of the tragic happening at Rantoul.
Mrs. Benjamin Ferguson was a Friday caller in the city from Lynnville.
Mrs. Sam Shumaker of Roodhouse made a business visit to Jacksonville yesterday.
The Rev. and Mrs. Lee Hanchett of White Hall visited in Jacksonville yesterday.

GIRL WHO CAUSED EDITOR'S ARREST SAYS SHE FLIRTED
Married, Quarreled With Husband, Flirted for Spite
(By The Associated Press)
CHICAGO, July 20.—Thelma Turpin, 17 years old who caused the arrest early today of Lynnan T. Yeargin, attorney and publisher of Oakland, Ill., charging he attempted to attack her admitted tonight that she was married and had run away from her home, according to William J. Grace, assistant state's attorney. Earlier in the day she had declared her name was Miss Ael Smith.
Her mother, she said, lived at Chesterville, Ill. On July 4, she declared she was married to Roy Daniels, a railroad agent, adding that she met Yeargin at Arcola, Ill., flirited with him because she had had a fight with her husband and finally agreed to come to Chicago with him. She said she locked him in her room and screamed for help when he tried to break out. Yeargin was sent to the girl's mother and husband.

MEXICO PRESIDENT ACTS PROMPTLY ON MURDER OF VILLA
(Continued from Page One)
have practically exterminated the Herrera family at one time prominent in the military and political circles of Mexico.
Villa in 1914 had two generals who were brothers, Maclovio Herrera who commanded the left wing of the army, and Melchor, who commanded the right.
Melchor, who was former mayor of Juarez, was killed mysteriously on the border. Circumstances were suspicious and friends of the Herrera family blamed Villa. This was in the latter part of 1914.
Maclovio, his father, Jose De La Luz Herrera, and a younger Herrera, were led to a graveyard in Parral on Easter morning in 1915, and executed. Villa was blamed for this.
Only Male Left
Francisco was the only male member of the prominent family left, and swore revenge it is said. Only last year Villa asked protection of the federal government from Herrera and his followers. Herrera is a government official at Gomez Palacio, Durango, not far from Parral.
The government, local officials say will question the possibility of Herrera's friends taking up the old feud for him.
Mrs. Robert Filson was among the visitors from Roodhouse yesterday.

SOME TAX REFUND SEEN AS POSSIBILITY

A corporation that received income during the years 1918, 1919 and 1920 on which taxes were paid is in a position to recover such taxes according to F. R. Young & Company, financial and taxation experts.

Under the 1918 Revenue Act, it is pointed out, ruled that on any income received by a corporation or death claim paid on insurance carried on the lives of any officer or employee, after deducting the amount of premiums previously paid on the policy, such net income was taxable.

This applied to corporations and during the years 1918, 1919 and 1920. Under the Revenue Act of 1921 this regulation was changed and with corporations, the same as partnerships and individuals when beneficiaries under corporate insurance, such income from this source is not taxable. The premiums are not allowed as an expense, according to F. R. Young & Company.

In view of the change in the law, they say, there is a possibility of making such action retroactive to include 1918, 1919 and 1920, and it is considered that where a corporation was the beneficiary upon the death of an officer, its president, the company was merely indemnified for the loss of a very valuable asset and instead of constituting gain to the corporation, actually there was a great loss.

It is considered that Congress intended to exempt insurance income received by corporations, beneficiaries, as well as individuals and partnerships, under the act of 1918, as well as the case under the act of 1916 and again in 1927. Should success be obtained in connection with these appeals, considerable benefit will undoubtedly be derived by corporations.

LOST DIAMOND PIN
C. A. Phillips of Bluffs had the misfortune to lose a diamond pin valued at \$150 during a recent trip to the swimming pool at Nichols park. Mr. Phillips forgot and left the pin in the bath house for about twenty minutes. When he returned to look for it, he found that it was gone. A small boy said that he saw a man pick up the pin and hurry away, but was unable to give a description of the man. Police were notified, and Mr. Phillips offered a reward of \$100 for the return of the pin, but thus far nothing has been learned of it.

DIES IN DETROIT
Miss Lily Graham of Detroit passed away recently according to a telegram received by Mrs. Kittie Hobbs of Murrayville from Louis Graham of Detroit, a brother of the deceased.

Decedent was well known here in the nineties when she was floor woman of a knitting mill that was owned by James King and removed by him to Piqua, Ohio. The deceased went with the mills to the Ohio town and held her position until she returned with an income to Detroit.

She was a member of Brooklyn M. E. church when resident here and was related by marriage to Mrs. J. F. Self of 862 South East street.

Great Volo took the first heat by capturing the pole position at the three quarters and holding it in the second heat Peter The Brewer finished ahead and looked promising for the third mile. The finish of the third mile was sensational. Close to the distance flag, Peter The Brewer appeared a winner, but with a hundred yards to go Great Volo showed a terrific burst of speed and won by a nose.

A popular victory occurred in the 2:09 trot when "Pop" Geers drove My Rosebud home an easy winner in straight heats. Best time for the event was 2:06 1/2.

The 2:04 pace went into four heats when Logan Hedgwood, Peter Etawah and Lillian Silkwood each won a heat. The extra heat to decide the race winner resulted in a victory for Lillian Silkwood.

The 2:15 pace was won by Quinla after Little George captured the first heat. There were only four starters.

GIANTS STAGE A GREAT COMEBACK
Seven Runs Behind in Sixth, Speed Up and Beat Cardinals 10 to 9

NEW YORK, July 20.—The New York Nationals made a spirited late inning rally here today and won the third game of their series from St. Louis, 10 to 9.

The Giants, seven runs behind when they went to bat in the sixth inning, drove out Toney and scored six runs. Stuart, a young collegian then held the Giants until the ninth when New York scored two runs. Almsmith and Smith each hit homers for the Cardinals early in the game with two runners on base, giving St. Louis its early big lead.

PREDICT KNOCKOUT IN LEONARD FIGHT
NEW YORK, July 20.—Followers of both Benny Leonard champion and Lew Tendler, Philadelphia challenger, predict that their fight next Monday night at the Yankee Stadium for the world's lightweight championship title will end in a knockout.

Tendler's southpaw punch, the blow that had Leonard back on his heels in their battle at Boyle's Thirty Acres, a year ago, is working to perfection, according to advances from the challenger's training camp at Delano, N. J., he is confident it will bring him to his long goal, the lightweight throne.

Leonard, however, at his quarters in Tannersville, N. Y., believes he has perfected a style of battle calculated to offset Tendler's portside advantage. He has trained daily for a month with four left handers.

The champion declared today he was in the best condition of his career and while he had little to say, he expects to put up the fight of his career.

ALEXANDER WILL PLAY AGAIN SUNDAY
The Alexander Merchants team will meet the Pleasant Plains team on the Alexander diamond tomorrow. The game will be called at 2:30 sharp. K. V. Beerup, an experienced and valuable player, will be with the Alexander aggregation Sunday as first baseman.

NOTICE
Several Illinois College students and prospective students need opportunities to work for part of their expenses. Various girls can help with house work, care for children, do stenographic work, tutoring, etc. The young men can work in stores, on farms, dairies, etc., do janitor work, care for furnaces, wait on tables, do bookkeeping, collecting, etc., etc. Personal attention given to requests for student help. Dean Scott, phones 1840 and 206.

WARFIELD BROWN LEAVES
Warfield Brown left last night by auto for Waupaca Wis., taking as his guests John Strawn and Lee Henry Goebel. The young men will spend a week at Ch. of Lakes, Mr. Brown's summer home.

Willbur Molten, Frank Coll Jr., and A. G. Davies of Virginia motored to the city Friday afternoon.

See Graham Hardware Co.'s special prices on Stoves and Refrigerators this week.

TERRIFIC POUNDING HANDED TO BROWNS

Williams Hit Homer in Fifth With No One On, Miller Duplicating in Sixth

ST. LOUIS, Mo., July 20.—Pounding four St. Louis pitchers hard, Philadelphia defeated the Browns 9 to 6 today. Extra base hitting featured the contest. Williams, who has been out of the lineup with an injured foot returned today and hit a home run with no one on base in the fifth inning. Miller duplicated the feat in the sixth.

FRANKLIN PLANS BIG PICNIC EVENT

Two Day Picnic to be Held Aug-
ust 1 and 2 in Franklin as
Closing Feature of Gift Cam-
paign.

The two day picnic which is
to be held in Franklin August 1
and 2 is to be one of the biggest
events of the season. The picnic
marks the close of the four
months gift campaign which the
merchants of Franklin have con-
ducted, and a large number of
valuable gifts will be distributed.
There will be an athletic pro-
gram during the afternoon of
each day, and a number of cash
prizes will be awarded to the win-
ners. The committee in charge
of the program includes George
Schaff, B. E. Asplund and L. L.
Sears.

There will be hamburger and
burgoo stands conducted by the
club former in charge of Earl
Miles and Joseph Williamson.
While George Jolly and Fred
Burch will be in charge of the
soup.

Miller Keplinger and Leonard
Hills will be in charge of the var-
ious special entertainment fea-
tures, while W. N. Luttrell and
H. M. Tulpin will control the con-
cessions. W. C. Calhoun will
have charge of the money. There
will be a merry-go-round, ball
game and keno tables and var-
ious other entertainment features.
The American Legion will con-
duct a platform dance each even-
ing, music for which will be
furnished by a five piece orches-
tra from Virden.

OTTO SPIETH WILL
ERECT NEW BUILDING

Otto Spieth now has the plans
and blueprints for the new build-
ing which he expects to erect next
spring on the site of the store
now occupied by Abe Wehl. He
will use the upper floor of the
structure as a photographic
studio and the lower floor will
be rented as a store room.

Market Report

MARKET CLOSES AT ABOUT HIGH LEVEL

FINANCIAL.
Total stock sales 425,000
shares.
Twenty industrials averaged
90.2; net gain .37.
High 1923; — 105.38; low
87.64.
Twenty railroads averaged
80.51; net gain .46.
High 1923 — 90.63; low
76.86.

NEW YORK, July 20.—While
there was some profit-taking tak-
ing sales in today's stock market
the definite upward trend which
started yesterday again control-
led prices and closing prices were
near the high levels of the day.
The volume of sales also in-
creased slightly giving additional col-
or to commission house reports
of renewed interest on the part
of the public.

The course of prices gave evi-
dence of the switching of many
bear traders to the bull side and
while occasional selling orders
were put into the market, all
such offerings found ready buy-
ers at current prices.

The demand was unusually
broad embracing a miscellaneous
list of industrials and specialties
and both the low priced and di-
vidend paying rails.

Gains in the rail group were
not large but covered a con-
siderable list including Chesapeake &
Ohio, Chicago & Eastern Illinois,
preferred, International Great
Northern, Illinois Central preferred,
Reading first and second
preferred, union Pacific and
Rock Island 7 per cent preferred
each up a point or more.

The usual market leaders were
quite active but net changes were
largely nominal. Baldwin, Stud-
eaker and United States Steel
each closing fractionally higher.

Short interests ran into diffi-
culties in their efforts to cover in
Stewart-Warner, which was
placed on a definite \$10 dividend
basis and rose to 93 1/2 or close to
the year's high point of 94 1/2;
the stock closed at 93 1/2 where it was
up 5 1/2 on the day.

The foreign exchange market
was again featured by the drop
of German marks to a new low
record of .0024 cent or one mil-
lion marks for \$2.50.

United States Government
bonds held steady with only nom-
inal net changes.

Total bond sales (par value)
\$6,319,000.

Chicago Livestock
CHICAGO, July 20.—Cattle re-
ceipts 3,000. Most killing classes
on catch-as-catch-can basis, dull
week to unevenly lower, especial-
ly on plain yearlings, beef heifers
and grass fed cows; quality
very plain; fresh receipts aug-
mented by moderate supply of
state offerings, accumulated from
earlier in the week, many of the
latter being held over without
bids, best matured steers 10.65;
weight 1640 pounds; bulk beef
steers and yearlings \$8.00 to 9.00;
few yearlings above outside fig-
ure; canners, bulls and veal cal-
ves fairly active, fully steady;
stockers and feeders dull.

Hogs, receipts 47,000. Uneven,
lower grades active. 10 to 12;
lower, others 15 to 25c lower;
bulk 160 to 240 pound average
\$7.25 to 7.40; top 7.50 bulk 250
to 325 pound butchers \$7.00 to

SPRINGFIELD MEN AT ROTARY CLUB

Eight From Capital City Here at Friday Luncheon—Club Favors County Health Program

Will Taylor of the Springfield Rotary club made the principal address at the Friday luncheon of the Jacksonville club held at the Pacific hotel. Mr. Taylor talked about Rotary principles in a way which emphasized them anew and suggested in a very interesting way that service, the motto of Rotary, may border very closely upon selfishness.

MARK SPOT AT NAPLES WHERE GRANT CAMPED

Winchester Woman's Club Members Travel Marker for Site of Gen. U. S. Grant's Camp With 21st Illinois Volunteers in 1861—Many Speakers on Program

A memorial marker was unveiled at Naples yesterday by the Literature and Civics department of Winchester Woman's club on the spot when General, then Col. U. S. Grant camped in 1861 with the 21st Illinois volunteers.

A large number of Bluffs, Winchester and Naples people were present to see the unveiling ceremony and hear the excellent addresses that were made. The memorial is a stone from the old Collins mill at Naples, one of the first mills in this part of the state, and bears these words:

"Gen. Ulysses S. Grant
Camped Here With
The 21st Ill. Vol.
July 6, 1861

By the Literature and Civics Department of the Winchester Woman's Club, 1923."

The sight of the camp, and the location of the stone, is in back of the handsome old home of Merton Abbott, situated on a bluff to the north of Naples.

The first thing on the schedule of the day was a picnic dinner, each family bringing a generous supply of eatables and ice cream being furnished.

Immediately after the dinner the meeting was called to order by the President of the Winchester Woman's club, Mrs. G. C. Smith, who after a few well chosen words on the deeds of the past and on the part that Scott county has played in Illinois history, introduced Rev. Mr. Reid of Naples, who spoke in part as follows:

"Our fathers have fought and cleared the wilderness that we might enjoy the American institutions and rights, both civil and religious, that we do. These advantages have cost our forefathers much and what may we do but maintain their traditions, hand them down to our own descendants and honor them."

Scott Rich in History

"Scott county," the speaker stated, "has a great many of the historic spots of this region. This very mound on which we stand is an ancient Indian burying ground. When the waters of the river are at flood the bones and relics of these departed redskins are disclosed. In Winchester we have two spots that have been marked for future generations, the spot on which Abraham Lincoln presented an address in 1854, and the spot upon which his great rival, Stephen A. Douglas, taught school when this county was young."

"Recently we sought to find the unmarked graves of departed heroes in the cemetery here. We expected to find about 20, we found 30 and are not sure that we have all. In this same cemetery is a gravestone marked: 'Here lies the first white child born in Cincinnati, Ohio.'"

"From Naples ran the first railroad ever laid in the state of Illinois, and one of the first in the Mississippi valley. I have a part of one of the first engines in my home, an ox shoe. Yes this is a part of the first locomotive for the train was drawn by oxen."

Mr. Ensley Moore, of this city, was then introduced and presented an account of Grant's march from Springfield to Quincy, when he camped on the place of meeting. He told of the reputed "toughness of the old 21st, of how this Colonel, John A. Logan, was unable to control his men, of how the great Grant was turned to and asked to assume the burden, of his simple reply to the question 'Can you tame these men?' when he answered with simple dignity, 'I think I can.'"

James His Men

The march of the regiment from Springfield to Naples was narrated. One of the most interesting events of this march was at Island Grove. The ladies of the country had prepared an elaborate 4th of July dinner for the soldiers. The boys, filled up on army food were wild to fall to and make away with it, but the stern Col. Grant, intent on taming his regiment, ordered that the regiment might file by and look at the feast but might not eat a single particle of it.

At Jacksonville Grant's men went into camp on the fair grounds. The Colonel stood at the gate and eyed every man as he went thru. Occasionally his eagle eye would sight a suspicious bump on a soldier and he would go over his clothes and produce a bottle of whisky, which he would break against the post of the gate. By the time the regiment had reached Quincy it was thoroughly tamed, and when it was sent to the front it proved itself one of the most gallant in the service, but without its commander, for Grant had been tried and proved fit and had been promoted to the rank of Brigadier shortly after the events told above.

The unveiling was done by two old soldiers assisted by little Mary Minna Abbott, daughter of Mr. and Mrs. Merton Abbott, of Naples. A solo, "Ring Out Sweet Bells of Peace," was rendered by Miss Palmer, of Bluffs.

Old soldiers present were: S. W. Peak, Co. F, 129th Ill.; James Henry, Co. F, 33rd Ill.; Martin Snow, Co. I, 70th Ill.; G. W. Claywell, Co. F, 33rd Ill., and the youngest man from Scott county in the war; Thomas J. Summers, Co. I, 70th Ill.

Rev. Mr. Gilmore of Winchester led a short song service.

OFFICERS UNCOVER STILL AT ALEXANDER

Another Boozie Raid by County Officers — John Dixon is Arrested and Still is Confiscated.

Sheriff's forces, acting on a warrant sworn out by State's Attorney Carl E. Robinson, conducted a raid yesterday morning at the home of Tom and John Dixon near Alexander. John Dixon was taken into custody, but Tom made his escape and has not yet been apprehended. Information charging the illegal manufacture of liquor and maintaining a still will be filed against Dixon in county court today by the state's attorney.

The officers captured a complete still, a barrel of mash, and about three gallons of moonshine whisky. This is the second big booze raid within the week, the first being the one in Cass county last Saturday.

Sheriff Wright and all of his deputies joined in this expedition. The still with a capacity of about 10 gallons, was located underneath the house and at first the only means of access was thru a hole in the foundation.

Later the officers found a trap door in a closet floor which made approach to the basement much easier. The whole whisky making outfit had been very completely concealed, but the information in the hands of the officers made them certain that they were on the right scent.

LINCOLN ADDRESS PRINTED BY I. C.

Dr. Barton's Notable Address Prepared for Distribution Among College Friends

"The Education of Abraham Lincoln" is the theme of a booklet recently issued by Illinois college and is the text of an address on that theme delivered before the faculty and students of the college earlier in the year by Dr. William E. Barton.

The address was issued in this form to make it possible for alumni and other friends of the college to read Dr. Barton's statement, which attracted much more than usual attention at the time of delivery. Copies can be secured by application to President Rammellkamp.

Dr. Barton is the author of "The Soul of Abraham Lincoln" and "The Paternity of Abraham Lincoln," and is widely known for his research work in connection with Lincoln's life and work.

Local Reference

The address has local application from the fact that Lincoln was several times in Jacksonville in the earlier years of his life and although plans were not carried out it was fully determined at one time that Ann Rutledge should attend the Female academy in this city and Lincoln Illinois college. At the time of the courtship of Lincoln and Ann Rutledge, David Rutledge, her brother, was a student at Illinois college. Those who heard Dr. Barton's address will remember the following paragraphs in which he refers to the possibility of Lincoln attending college and in a broad way suggests that even if he had it is doubtful if he would have acquired more of knowledge and experience than came in the same years at Salem.

"Could Lincoln have gone to college? Certainly he could. Other young men as little prepared in education and with as little money did go to Illinois college. Newton Bateman, whom Lincoln was to know well as state superintendent of public instruction in Illinois, started his way thru Illinois college, and Richard Yates, the war governor, went there, and Richard Oglesby got thru two years at Mount Morris. These were Lincoln's contemporaries, and they were, some of them, as poor as he. Lincoln could have gone to college, and if Ann Rutledge had lived, he probably would have gone.

"I do not think that Ann Rutledge planned to go to Jacksonville unless Lincoln also went. She had had one love affair that ended unhappily, and she was not likely to go away deliberately and leave her lover for a year. The Rutledge tradition appears to me to have every appearance of probability, that the plan of Ann to attend the Female academy was thought out jointly by Abraham and Ann, and had joined to it his plan for at least a year of study at Illinois college. Every student of Illinois college has a right to think with greater pride of his Alma Mater because it was, in imagination and hope, the college of Abraham Lincoln.

What Salem Gave

"Lincoln might have spent his seven years which he spent at New Salem, and graduated with a smaller debt than he had when that little city 'winked out.' I cannot help wondering whether this college or any college would have done more for him than New Salem did.

"On August 6, 1834, Lincoln was elected a member of the Illinois legislature. At Vandalla he met the heads of the three Illinois colleges as they came to the capital in the interests of their respective schools. Shurtleff college was at Upper Alton and McKendree at Lebanon. Lincoln knew of both of them. But he knew more still about Illinois college, which had been operating since 1830 at Jacksonville, only 20 miles away from New Salem. Far from its having been unthinkable for Lincoln to go to college, it was impossible for him not to think of it. William G. Greene, and his brother added to in David Rutledge's letter, and David himself, were constant reminders that a young man eager to learn could go to Jacksonville practically without money, and the college would provide work, and admit him to its preparatory department, and hold out before him the hope of a real diploma and a degree.

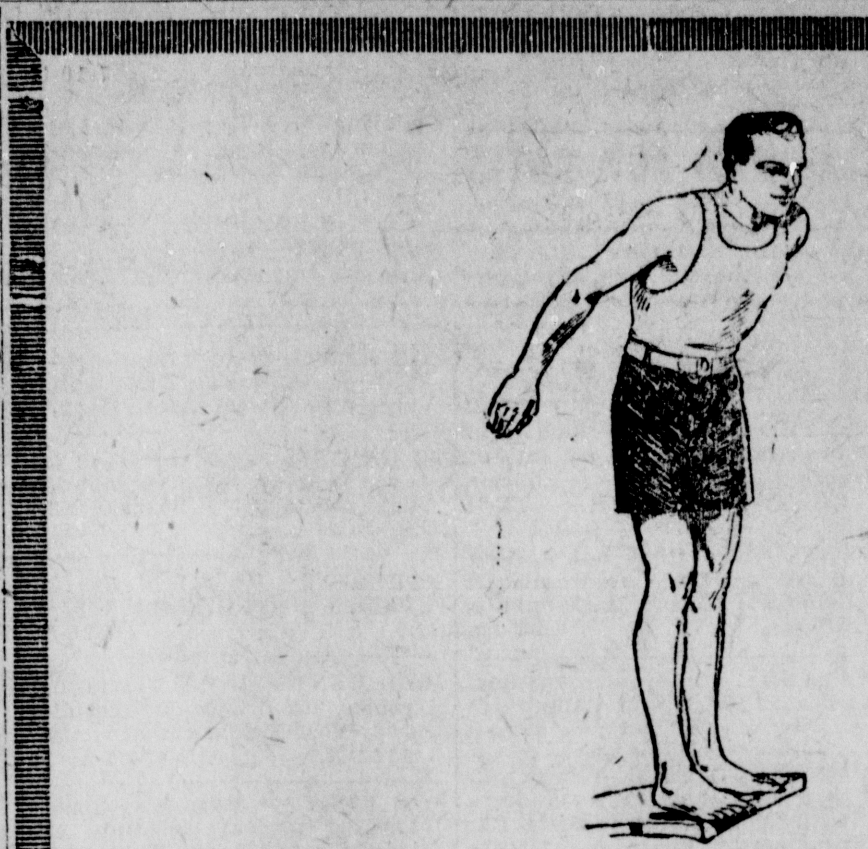

"Illinois college had a faculty of four Yale alumni, who were graduates in Divinity also. Three of them were men of distinction. They were the president, Edward Beecher, and Professors Jonathan Baldwin Turner and Julian M. Sturtevant. To have been associated with these men, in classes so small that every student was an intimate friend of the teacher, would of itself have been a liberal education. Edward Beecher was a brother of Henry Ward Beecher, and an author of note, as well as an inspiring teacher."

SUBSTITUTE CHAIR FOR FORMER ROPE

MONTGOMERY, Ala., July 20. A bill providing for abolition of the method of capital punishment by hanging and substitution of the electric chair, was passed by the Alabama senate this afternoon by a vote of 26 to 4. The bill will go into effect June 1, 1924, if the house concurs.

Senator Waddell offered an amendment to the bill providing that only one newspaperman should be allowed to witness executions, claiming that without regulations the affair would be public. The amendment was defeated.

W. H. JOHNSON DIES IN NEW YORK CITY

Former Resident Passes Away Following Three Months Period of Illness.

A message received here yesterday brought news of the death of William H. Johnson in New York City, where he has been ill for a period of three months. Mr. Johnson was a son of the late W. B. Johnson of this city and was born in Jacksonville, December 5, 1852.

As a young man he entered business life and for a period of years was the owner of a furniture store in Jacksonville. He left this city about twenty-three years ago for New York City, where he has since been a resident.

Mr. Johnson, who has extensive schooling in the furniture business, was a city salesman in New York for a well known firm there. About 36 years ago the deceased was married to Miss Florence McGee of Leavenworth, Kansas, who survives him. One son, Fred, died in 1919.

Mr. Johnson leaves three brothers, John L. and C. A. Johnson of this city and Edward Johnson of Chicago. The deceased is well remembered by many Jacksonville people, who will learn with regret of his death.

John L. Johnson left last night for New York City to attend the funeral service.

HOW BELL RESEARCH STAFF AIDS TELEPHONE INDUSTRY

The constant research and inventive effort being put forth by the public utility companies serving the nation is illustrated by the work of the American Telephone and Telegraph company.

That great organization maintains a corps of scientists and engineers for the purpose of designing, perfecting and testing inventions and trying out materials used in plant construction. The personnel employed is commonly referred to as the "general staff." Much of the research work, involving the examination and testing of apparatus for durability and cost, the standardization of materials and the designing, testing and improving of new devices is carried on in the New York city laboratories of the Western Electric company, the manufacturing unit of the Bell Telephone company.

These investigations cover all phases of the telephone industry, with particular reference to equipment development, outside plant development, electrical interference, and fundamental research.

Among the more important achievements attributed to the general staff are: Development and commercial utilization of the Pupin coil; development of vacuum tube repeaters; development of fine wire cable; the antimony cable sheath; paper insulation of fine wire cable; as well as perfected methods of cable splicing; improved type of phantom circuit; utilization of carrier currents; fundamental changes in receivers and transmitters; audible ringing signal; standard flexible switchboard cord and prepayment coin boxes.
